

### PSHE (Personal, Social, Health Education) Policy including Relationships, Health Education & Sex Education

Governors' Committee Responsible: Nominated Lead Member of Staff: Status & Review Cycle: Next Review Date: Children & Learning Committee Headteacher / PSHE Coordinator Statutory (Every 3 years) Autumn 2026

### Introduction

Shottermill Junior School is situated in Haslemere in the South West corner of Surrey, bordering the counties of West Sussex and Hampshire. The pupils come from a mixed catchment area and a range of needs are catered for as part of the SEND provision at Shottermill.

Shottermill Junior School takes its responsibility to provide relevant, effective and responsible relationships education to all of its pupils, as part of the school's personal, social, health and economic education (PSHE) curriculum, very seriously. The school wants parents and pupils to feel assured that relationships, sex and health education will be delivered at a level appropriate to both the age and development of pupils, and for them to feel safe to voice opinions about this. This is why we have consulted with all stakeholders to create this policy and scheme of work, which implements the statutory government guidance: **Relationships education, relationships and sex education (RSE) and health education** published June 2019, for implementation from September 2020 onwards. <u>https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment\_data/file/1090195/Relationships Education RSE and Health Education.pdf</u>

### **Policy Aims**

This policy is drafted by the PSHE and RE coordinator, in consultation with the Head Teacher. The policy is reviewed and approved by the Governing Body and will be made available on the school website. (Hard copies can be requested by parents or guardians from the School Office). The Policy will be shared with all members of staff working within the school, who all have a responsibility for delivering the PSHE scheme of work.

This policy also links to **The Equality Act 2010** and as a school the following equalities objectives have been published to show how we are committed to ensuring a fully inclusive working and learning environment for all. We will:

- Provide all children with appropriate access to learning experiences at our school and not disadvantage any child from taking part on the grounds of their gender, ethnicity, background or culture, Special Educational Need or Disability, or any other discriminatory factor.
- Teach pupils to be accepting of the different beliefs, cultures, religions, sexual orientations, physical and mental abilities, backgrounds and values of those around them.
- Provide a secure and supportive environment that empowers people to challenge discrimination, should they encounter it.
- Ensure that any person visiting or working within our school environment does not suffer discrimination.
- Ensure prospective employees are treated fairly and do not suffer any form of discrimination, in line with fair recruitment purposes.
- Promote and celebrate the diversity of children and adults who visit or work within our school and promote equality through our actions and communications.
- Provide systems of monitoring to facilitate continuous improvement, learning and sharing of existing good practice, as overseen by the Governing Body and Local Authority.
- Work with all stakeholders or other local schools to develop cohesive communities, with shared values that encompass equal opportunities.
- Work towards the elimination of discrimination and harassment through upholding our Core Values of: *Respect, Trust, Love of Learning, Communication, Creativity and Excellence.*
- Try to raise pupils' self-esteem and confidence, encouraging them to develop communication and assertiveness skills that can help them stay true to their values, if challenged by others; their peers or what they see in the media.

### Context

All schools must provide a curriculum that is broadly based, balanced and meets the needs of all pupils. Under section 78 of the Education Act 2002 and the Academies Act 2010, a PSHE curriculum:

- Promotes the spiritual, moral, cultural, mental and physical development of pupils at the school and of society, and
- Prepares pupils at the school for the opportunities, responsibilities and experiences of later life.

#### PSHE

At Shottermill Junior School, we teach Personal, Social, Health Education as a whole-school approach to underpin children's development as people and because we believe that this also supports their learning capacity.

The Jigsaw Programme offers us a comprehensive, carefully thought-through Scheme of Work which brings consistency and progression to our children's learning in this vital curriculum area. The overview of the programme can be seen on the school website.

This also supports the "Personal Development" and "Behaviour and Attitude" aspects required under the Ofsted Inspection Framework, as well as significantly contributing to the school's Safeguarding and Equality Duties, the Government's British Values agenda and the SMSC (Spiritual, Moral, Social, Cultural) development opportunities provided for our children.

### **Statutory Relationships and Health Education**

"The Relationships Education, Relationships and Sex Education and Health Education (England) Regulations 2019, made under sections 34 and 35 of the Children and Social Work Act 2017, make Relationships Education compulsory for all pupils receiving primary education...They also make Health Education compulsory in all schools except independent schools. Personal, Social, Health and Economic Education (PSHE) continues to be compulsory in independent schools."

DfE Guidance p.8

"Today's children and young people are growing up in an increasingly complex world and living their lives seamlessly on and offline. This presents many positive and exciting opportunities, but also challenges and risks. In this environment, children and young people need to know how to be safe and healthy, and how to manage their academic, personal and social lives in a positive way."

"This is why we have made Relationships Education compulsory in all primary schools in England...as well as making Health Education compulsory in all state-funded schools."

"In primary schools, we want the subjects to put in place the key building blocks of healthy, respectful relationships, focusing on family and friendships, in all contexts, including online. This will sit alongside the essential understanding of how to be healthy."

"These subjects represent a huge opportunity to help our children and young people develop. The knowledge and attributes gained will support their own, and others' wellbeing and attainment and help young people to become successful and happy adults who make a meaningful contribution to society."

Secretary of State Foreword DfE Guidance 2019 p.4-5

"Schools are free to determine how to deliver the content set out in the DfE guidance 2019 in the context of a broad and balanced curriculum. Effective teaching in these subjects will ensure that core knowledge is broken down into units of manageable size and communicated clearly to pupils, in a carefully sequenced way, within a planned programme of lessons."

DfE Guidance p.8

"All schools must have in place a written policy for Relationships Education and RSE."

DfE Guidance p.11

Here, at Shottermill Junior School we value PSHE as one way to support children's development as human beings, to enable them to understand and respect who they are, to empower them with a voice and to equip them for life and learning.

We include the statutory Relationships and Health Education within our whole-school PSHE Programme.

To ensure progression and a spiral curriculum, we use Jigsaw, the mindful approach to PSHE, as our chosen teaching and learning programme and tailor it to your children's needs. The mapping document: Jigsaw 3-11 and statutory Relationships and Health Education, shows exactly how Jigsaw and therefore our school, meets the statutory Relationships and Health Education requirements.

This programme's complimentary update policy ensures we are always using the most up to date teaching materials and that our teachers are well-supported. The Jigsaw Programme is aligned to the PSHE Association Programmes of Study for PSHE.

### What do we teach when and who teaches it?

#### Whole-school approach

Jigsaw covers all areas of PSHE for the primary phase including statutory Relationships and Health Education. The table below gives the learning theme of each of the six Puzzles (units) and these are taught across the school; the learning deepens and broadens every year.

Term	Puzzle (Unit)	Content
Autumn 1:	Being Me in My World	Includes understanding my own identity and how I fit well in the class, school and global community. Jigsaw Charter established.
Autumn 2:	Celebrating Difference	Includes anti-bullying (cyber and homophobic bullying included) and understanding
Spring 1:	Dreams and Goals	Includes goal-setting, aspirations, who do I want to become and what would I like to do for work and to contribute to society
Spring 2:	Healthy Me	Includes drugs and alcohol education, self-esteem and confidence as well as healthy lifestyle choices, sleep, nutrition, rest and exercise
Summer 1:	Relationships	Includes understanding friendship, family and other relationships, conflict resolution and communication skills, bereavement and loss
Summer 2:	Changing Me	Includes Relationships and Sex Education in the context of coping positively with change

At Shottermill Junior School, we allocate at least 30 minutes to PSHE each week in order to teach the PSHE knowledge and skills in a developmental and age-appropriate way.

These explicit lessons are reinforced and enhanced in many ways: through assemblies and collective worship, praise and reward systems, Learning Charter, through relationships child-to-child, adult-to-

child and adult-to-adult across the school. We aim to 'live' what is learnt and apply it to everyday situations in the school community.

Sex Education will be taught largely in mixed gender classes. In Year 6, following mixed gender lessons, children will split into gender groups to allow for further discussion and the opportunity for children to anonymously ask questions.

### **Relationships Education**

### What does the DfE statutory guidance on Relationships Education expect children to know by the time they leave primary school?

Relationships Education in primary schools will cover 'Families and people who care for me', 'Caring friendships', 'Respectful relationships', 'Online relationships', and 'Being safe'.

The expected outcomes for each of these elements can be found further on in this policy. The way the Jigsaw Programme covers these is explained in the mapping document: Jigsaw 3-11 and Statutory Relationships and Health Education.

It is important to explain that whilst the Relationships Puzzle (unit) in Jigsaw covers most of the statutory Relationships Education, some of the outcomes are also taught elsewhere in Jigsaw e.g. the Celebrating Difference Puzzle helps children appreciate that there are many types of family composition and that each is important to the children involved. This holistic approach ensures the learning is reinforced through the year and across the curriculum.

### **Health Education**

## What does the DfE statutory guidance on Health Education expect children to know by the time they leave primary school?

Health Education in primary schools will cover 'Mental wellbeing', 'Internet safety and harms', Physical health and fitness', Healthy eating', 'Drugs, alcohol and tobacco', 'Health and prevention', 'Basic First Aid', 'Changing adolescent body'.

The expected outcomes for each of these elements can be found further on in this policy. The way the Jigsaw Programme covers these is explained in the mapping document: Jigsaw 3-11 and Statutory Relationships and Health Education.

It is important to explain that whilst the Healthy Me Puzzle (unit) in Jigsaw covers most of the statutory Health Education, some of the outcomes are taught elsewhere in Jigsaw e.g. emotional and mental health is nurtured every lesson through the calm me time, social skills are grown every lesson through the connect us activity and respect is enhanced through the use of the Jigsaw Charter.

Also, teaching children about puberty is now a statutory requirement which sits within the Health Education part of the DfE guidance within the 'Changing adolescent body' strand, and in Jigsaw this is taught as part of the Changing Me Puzzle (unit.

Again, the mapping document transparently shows how the Jigsaw whole-school approach spirals the learning and meets all statutory requirements and more.

### **Sex Education**

RSE is lifelong learning about physical, moral and emotional development. It is about teaching sex, sexuality and sexual health in a way that is fully understood and effectively retained by pupils in our care. It is also about teaching what it is to be in a caring, stable and mutually supportive relationship with another person, and how to control and understand feelings that come with being in a relationship. RSE will outline the importance of marriage for family life and the raising of children, as well as highlighting the role of marriage and other stable relationships as building blocks for community and society. Some aspects are taught in science and others are taught as part of personal, social, health and economic education (PSHE).

The school would like to emphasise that by providing comprehensive RSE, we are not encouraging pupils to become sexually active at a young age. The aim of this policy is to ensure that the right provision is in place so that pupils may have all the background knowledge that they need, to make informed decisions and responsible choices as they grow up. Research demonstrates that good, comprehensive sex and relationship education does not make young people more likely to become sexually active at a younger age. We want our pupils to lead a healthy and safe lifestyle, teach them to care for and respect their bodies and provide them with all the right tools that will enable them to seek information or support, should they need it, both during their school years and after.

### The right of withdrawal

RSE is a vital part of the school curriculum and supports child development. Therefore, we strongly urge parents to carefully consider their decision, before withdrawing their child from this aspect of school life. Parents will be informed that RSE lessons will be taking place in the 2<sup>nd</sup> half of the summer term, via our newsletter.

If parents would like to view the content of the RSE animations or resources shared in lessons, they are welcome to make an appointment with the Class Teacher to view these and ask any questions they may have.

Parents and guardians have the right to withdraw their children from any, or all, parts of the school's programme of sex education, other than those elements which are stated in National Curriculum Science programme of study and the Physical Health and Mental Wellbeing programme of study.

The parental right of withdrawal may be exercised by either parent or by a person who has responsibility or care of the child. Parents and guardians do not have to give reasons for their decision, nor do they have to indicate what other arrangements they intend to make for providing sex education for their children. Parents and guardians <u>must</u> make their request <u>in writing</u> to the Headteacher. Parents should update this request for withdrawal each year, before RSE lessons commence.

Any child withdrawn from sex education lessons will be supervised in another year group with appropriate work.

### Equality

The DfE Guidance 2019 (p. 15) states, "Schools should ensure that the needs of all pupils are appropriately met, and that all pupils understand the importance of equality and respect. Schools must ensure they comply with the relevant provisions of the Equality Act 2010 under which sexual orientation and gender reassignment are amongst the protected characteristics.

At the point at which schools consider it appropriate to teach their pupils about LGBT (Lesbian, Gay, Bisexual, Transgender), they should ensure this content is fully integrated into their programmes of study for this area of the curriculum rather than delivered as a stand-alone unit or lesson. Schools are free to determine how they do this, and we expect all pupils to have been taught LGBT content at a timely point as part of this area of the curriculum".

At Shottermill Junior School we promote respect for all and value every individual child.

We also respect the right of our children, their families and our staff, to hold beliefs, religious or otherwise, and understand that sometimes these may be in tension with our approach to some aspects of Relationships, Health and Sex Education.

For further explanation as to how we approach LGBT relationships in the PSHE (RSHE) Programme please see:

'Including and valuing all children. What does Jigsaw teach about LGBTQ relationships?'

### Appendix 1:

### **Relationships Education in Primary schools – DfE Guidance 2019**

The focus in primary school should be on teaching the fundamental building blocks and characteristics of positive relationships, with particular reference to friendships, family relationships, and relationships with other children and with adults.

The guidance states that, by the end of primary school:

	Pupils should know	How Jigsaw provides the solution
Families and people who care for me	<ul> <li>that families are important for children growing up because they can give love, security and stability.</li> <li>the characteristics of healthy family life, commitment to each other, including in times of difficulty, protection and care for children and other family members, the importance of spending time together and sharing each other's lives.</li> <li>that others' families, either in school or in the wider world, sometimes look different from their family, but that they should respect those differences and know that other children's families are also characterised by love and care.</li> <li>that stable, caring relationships, which may be of different types, are at the heart of happy families, and are important for children's security as they grow up.</li> <li>that marriage represents a formal and legally recognised commitment of two people to each other which is intended to be lifelong (Marriage in England and Wales is available to both opposite sex and same sex couples. The Marriage (Same Sex Couples) Act 2013 extended marriage to same sex couples in England and Wales. The ceremony through which a couple get married may be civil or religious).</li> <li>how to recognise if family relationships are making them feel unhappy or unsafe, and how to seek help or advice from others if needed.</li> <li>about different types of bullying (including cyberbullying), the impact of bullying, responsibilities of bystanders (primarily reporting bullying to an adult) and how to get help.</li> <li>what a stereotype is, and how stereotypes can be unfair, negative or destructive.</li> </ul>	All of these aspects are covered in lessons within the Puzzles   Relationships  Changing Me  Celebrating Difference Being Me in My World

	the importance of permission-seeking and	
	giving in relationships with friends, peers and

# Physical health and mental well-being education in Primary schools – DfE Guidance

The focus in primary school should be on teaching the characteristics of good physical health and mental wellbeing. Teachers should be clear that mental well-being is a normal part of daily life, in the same way as physical health.

By the end of primary school:

	Pupils should know	How Jigsaw provides the solution
Mental wellbeing	<ul> <li>that mental wellbeing is a normal part of daily life, in the same way as physical health.</li> </ul>	All of these aspects are covered in lessons within the Puzzles
	<ul> <li>that there is a normal range of emotions (e.g. happiness, sadness, anger, fear, surprise, nervousness) and scale of emotions that all humans experience in relation to different experiences and situations.</li> </ul>	<ul> <li>Healthy Me</li> <li>Relationships</li> <li>Changing Me</li> <li>Celebrating Difference</li> </ul>
	<ul> <li>how to recognise and talk about their emotions, including having a varied vocabulary of words to use when talking about their own and others' feelings.</li> </ul>	
	<ul> <li>how to judge whether what they are feeling and how they are behaving is appropriate and proportionate.</li> </ul>	
	<ul> <li>the benefits of physical exercise, time outdoors, community participation, voluntary and service-based activity on mental well-being and happiness.</li> </ul>	
	<ul> <li>simple self-care techniques, including the importance of rest, time spent with friends and family and the benefits of hobbies and interests.</li> </ul>	
	<ul> <li>isolation and loneliness can affect children and that it is very important for children to discuss their feelings with an adult and seek support.</li> </ul>	
	<ul> <li>that bullying (including cyberbullying) has a negative and often lasting impact on mental well-being.</li> </ul>	
	<ul> <li>where and how to seek support (including recognising the triggers for seeking support), including whom in school they should speak to if they are worried about their own or someone else's mental well-being or ability to control their emotions (including issues arising online).</li> </ul>	

		1
	• it is common for people to experience	
	mental ill health. For many people who	
	do, the problems can be resolved if the	
	right support is made available,	
	especially if accessed early enough.	
Internet safety	<ul> <li>that for most people the internet is an</li> </ul>	All of these aspects are covered
and harms	integral part of life and has many henefits	in lessons within the Puzzles
	<ul> <li>benefits.</li> <li>about the benefits of rationing time spent online, the risks of excessive time spent on electronic devices and the impact of positive and negative content online on their own and others' mental and physical wellbeing.</li> <li>how to consider the effect of their online actions on others and knowhow to recognise and display respectful behaviour online and the importance of keeping personal information private.</li> <li>why social media, some computer games and online gaming, for example, are age restricted.</li> <li>that the internet can also be a negative place where online abuse, trolling, bullying and harassment can take place, which can have a negative impact on mental health.</li> <li>how to be a discerning consumer of information online including understanding that information,</li> </ul>	<ul> <li>Relationships</li> <li>Healthy Me</li> </ul>
