

## The Creation Story

On the first day God said “let there be light!” He separated the light from the darkness and created day and night.

On the second day God made a space above the water on Earth and called it “sky”.

On the third day God collected up the water so that land appeared. He created grass, trees, flowers, deserts, lakes, oceans and seas.

On the fourth day God made two great lights. He created the sun to shine in the day and the moon to shine at night. He made the stars to fill the night sky.

On the fifth day God filled the seas and waters with fish, whales and other creatures, and the sky with all kinds of birds.

On the sixth day God filled the land. Every animal that walks, runs, crawls and climbs was made.

Then he made people. He made them with a spirit just like him so that they could look after everything else and worship him forever.

The seventh day was very special. God did not do any work, he rested and enjoyed what he had done.
