

Year 4 Foundation Overview

8th - 12th June

Science

Grouping Living Things
We are starting our new science topic this week - Living Things and Their Habitats.
Work through the power point and complete the activity where you will be grouping animals together. There is a one, two and three star option so please choose the star you would normally tackle in class.

RE

Pentecost is the festival when Christians celebrate the gift of the Holy Spirit. It is celebrated on the Sunday 50 days after Easter (the name comes from the Greek pentekoste, "fiftieth").

Pentecost is regarded as the birthday of the Christian church, and the start of the church's mission to the world. This year's Pentecost was celebrated last week on Sunday 31st May.

Watch the video story about what happened at the Pentecost.

<https://www.youtube.com/watch?v=KwJJJoSGw84>

Create a picture or craft to represent the events of the Pentecost. Think about the colours / symbols you will use.

PENTECOST
Stained Glass Craft

PSHE

Build a minibeast city -
see attached sheet.

Super star challenge

Complete at least 2 of
the challenges on the
reading challenge grid!

Project – Rivers

This week we would like you to label the different parts of a river. Read the PowerPoint presentation first and then you can complete the task by either labelling the worksheet attached or you can create your own river and add labels (there is an example of this at the end of the PowerPoint). Please send us photos of your creations!

Usually topic work can be completed without adult help but you will probably need some help when you're reading the PowerPoint.

Creative Challenge!

Create your own map.

*It could be somewhere
that is important to you such as your
street or town OR it could be set in
your own imaginary world.*
