

Space Travel Timeline

I can order key dates in space travel on a timeline.

Find out when the events on the bottom of this sheet happened and add them, in the correct place, to your timeline. Write in the country involved in the mission.

Choose two of the missions and find out about some of the important people involved. Write their names below the country involved in the mission.

<p>The first space station is launched - named Salyut.</p> <p>_____</p> <p>_____</p>	<p>Yuri Gagarin becomes the first human to go into space.</p> <p>_____</p> <p>_____</p>	<p>Sputnik 1 satellite is launched into space.</p> <p>_____</p> <p>_____</p>	<p>The first 'space tourist' pays to visit outer space.</p> <p>_____</p> <p>_____</p>	<p>Apollo 11 lands on the moon.</p> <p>_____</p> <p>_____</p>	<p>The Viking 1 Lander is the first spacecraft to land on Mars.</p> <p>_____</p> <p>_____</p>	<p>People start to build the International Space Station in space.</p> <p>_____</p> <p>_____</p>

Space Travel Timeline

I can order key dates in space travel on a timeline.

Find out when these events happened and add them, in the correct order, to your timeline. Draw a line, with a ruler, to the correct place on the timeline.

Write the year and country involved in the mission in each box.

1950

1960

1970

1980

1990

2000

2010

--	--	--	--	--	--	--

The first space station is launched - named Salyut. _____ _____	Yuri Gagarin becomes the first human to go into space. _____ _____	Sputnik 1 satellite is launched into space. _____ _____	The first 'space tourist' pays to visit outer space. _____ _____	Apollo 11 lands on the moon. _____ _____	The Viking 1 Lander is the first spacecraft to land on Mars. _____ _____	People start to build the International Space Station in space. _____ _____
---	--	---	--	--	--	---

Choose two of these events and write more detail about what happened here:

1. _____

2. _____
