

**Year 4 Foundation
Overview
15th - 19th June**

Science

Grouping Living Things
Classifying Vertebrates

There are two short activities to complete this week. Follow the power point presentation and use the information on the slides to help you. For activity two, there is a one, two and three star option, so choose the one you would normally tackle in class.

French

How many animals can you remember from our lessons?

Design a new and unusual creature with body parts borrowed from other animals (you could use the one you made for the creative challenge or create a new one).

Draw it and use the sentence builder sheet to write some sentences.

PSHE

Build a nest- see attached sheet.

Super star challenge

Complete at least 2 of the challenges on the reading challenge grid!

Project – Rivers

This week we are going to start a three week rivers project. We're so excited about seeing what you produce!

You'll be researching the river this week. Watch the video, look through the PowerPoint from the video again and then choose a river to research. Complete this week's attached sheet about your river.

Creative Challenge!

Draw a self-portrait or a portrait of a member of your family.

Try to get the proportions right and use light and shade.
