

## WELLBEING QUESTIONNAIRE

This was asked for in the [ELSA Support Group](#) by Victoria Harris Day. She wanted a way of telephoning children to get a snapshot of how they are coping at home. Together we came up with these questions.

You are welcome to use them too. It will certainly give you an idea on the resources you might need to send home to help a child.

I honestly think our children's wellbeing is paramount right now and above all the academic learning. They will catch up with the academics but not if they are not coping well or feeling unhappy.

I would suggest KS2 upwards for this resource.

For KS1 you could send the questions home for parents to do with their children.

This will give you a good indication of the areas you need to help with from school. If they are not feeling happy then how can you help with that? What can you suggest? Of course ELSA Support has lots of resources for increasing happiness so come and have a look. Also I am always available if you want to contact me through the website. I will do my very best to suggest the best resources to help.

Debbie
