June 2020

Dear 3 Fabulous!

Hopefully by now you have all watched the teacher reveal video and know that I am going to be your teacher in year 4. I am super excited about being your teacher and being able to join in your learning journey again!

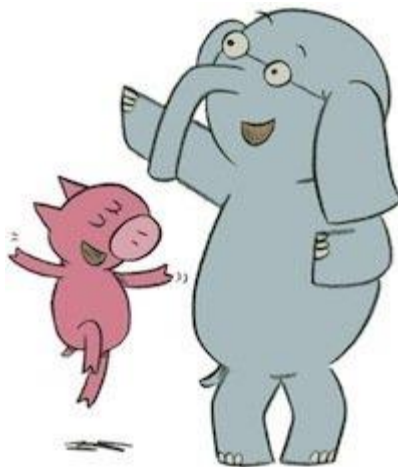

From getting to know you in year 3 and all the lovely phone calls during lockdown I feel like I already know you all quite well, and you hopefully already feel like you know me. As such you and 3G are going to have a different task to complete this week.

We are going to be moving classroom for our year 4 adventure, over the hallway to where the 4RB classroom was. That means that have the chance to create a new classroom space that's perfect for us to have fun and learn.

I have created a little booklet for you to try and fill in over the week. Take your time and if you don't manage to complete all the parts don't worry, you can still share your ideas with me later. I would then like you to bring these booklets in with you for your transition mornings so that I can read all your wonderful ideas.

Happy thinking and planning and I can't wait to see you all in person soon!

Mrs N !

# 4N Plan Our Classroom Booklet Top Secret!

(only members of the amazing, fantastic, wonderful, superb, astonishing, brilliant, super cool, excellent, outstanding, phenomenal, terrific, tremendous, astounding, marvellous, incredible 4N class can look inside!\*)

\*I may have looked up wonderful in a thesaurus!

Task for day one:

Our new classroom doesn't have any cubbies or cupboards like our old classroom so we can plan out the space. Use the large rectangle below to draw on and plan what you would like to be included in your dream classroom. We might not be able to do all the ideas but we will definitely have fun designing it and I will try to include as many ideas as possible.

Some ideas you could include:

- A reading corner or comfy place
- Decorations on the walls/windows or equipment you would like
- How the tables could be laid out and with how many people

Windows at the back of the classroom

Interactive Whiteboard

Door

## Task for day 2

### You as a learner

What subject do you enjoy the most at school?

When you are writing at school or at home what position do you find comfiest and easiest to do your work? Sitting down at a table, standing up leaning over a table or worktop, sitting on the floor and writing on a hard book or lying down? If you have never tried all of these then give it a go now!

Do you like to do school work when its quiet, listening to music or when other classmates are chatting around you?

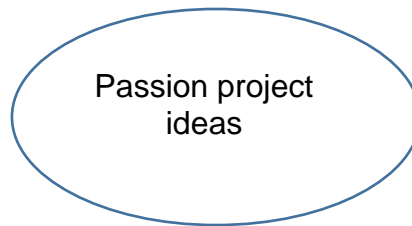

Do you like to talk about your math and writing ideas with a friend before you start doing a task?

Who in our class do you think your work best with? These might not be the classmates you like to play with, but the ones that you might have worked with in year 3 and felt proud of the work you did.

### Task for day 3

## Passion Project

In year 4 I am going to give you chance to research and teach the rest of the class about something you would really like to know more about. Start thinking now and write down any ideas you already have below.

## What would you like me to know?

Is there anything you would like me to know before year 4 starts? This could be anything you would like extra help with, something you are worried about or something you are looking forwards to.

## Task for day 4

### 4N Poster

Finally, if you have time, try designing a poster for our new class. You could give us a nickname, who is in the class or even include some class rules.
