

**Year 4 Foundation
Overview**

13th July – 17th July

Computing

Working at home, everyone is using the internet a lot more, it is important for us all to be aware of how well we can trust information we find on the internet.

Watch the video for 'the R rule' and complete the activities.

It would be good to watch with an adult so you can discuss your ideas. Choose one of the challenges at the end of the video to complete.

<https://www.childnet.com/resources/video-lessons/the-r-rule>

Wellbeing!

Complete at least 2 days of the weekly wellbeing journal. If you can, try to complete the whole week!

Creative Challenge!

Create your own avatar.

Science

Living Things and Their Habitats
I hope you have enjoyed this unit of Science. For your last science lesson of the school year I'd like you to summarise what you've learnt throughout this unit. The presentation is free choice - a fact page, poster, power point presentation - the choice is yours! Try to pack your work with interesting information which is accurate and most importantly, use your creativity to make it eye catching. I can't wait to see the variety of work that you produce.

Super star challenge

Complete one of the '7 wellbeing activities for 7 days' to complete

Project – Rivers

You are going to brainstorm words about a river and then use them to write a lovely poem about a river. Please watch the video on the website, which explains how to do it, and these links below are for you to listen to river sounds.
